

AQ100/AQ150 Power Supply Pin Installation and Removal Procedures

To Install:

1. Select the appropriate plug for use in your country.
2. Align and hook the top edge of the pin plate to the edge of the recess.
3. Press the plate in the direction as shown in the diagram until it snaps in place.

Hook Plate at top

Press inward

To Remove:

Slide the “OPEN” knob down until the pin plate is released.

Slide knob downward
