

Welcome to your sleek new AQ890 diffuser. It is a free-standing tower that simply needs to be placed near a 110 to 240V outlet. These easy steps will get you started.

SCENT SYSTEM SET UP INSTRUCTIONS:

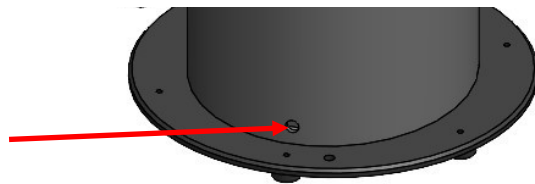

1. Unpack the box. Inside you will find:

- The AQ890 appliance
- The power supply
- The key

*note: the fragrance cartridge will be in a separate box

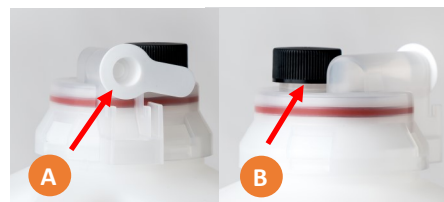

2. Attach the power supply into the port at the back of the appliance and plug into the outlet

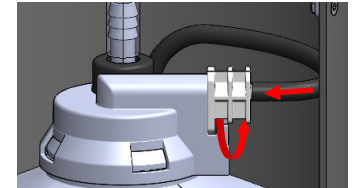

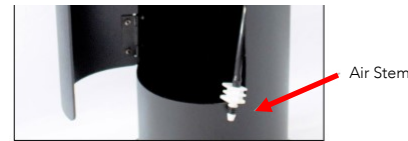

3. Use the key to unlock and open the cartridge housing door.

4. Prepare the cartridge

- Remove the big plug from the air-stem port (A)
- Remove the black screw cap from the top outlet (B)

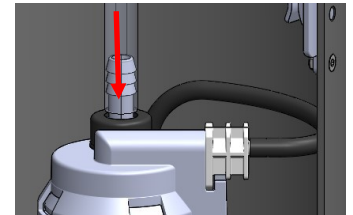

5. Place the fragrance cartridge into the appliance.
6. Insert the air-stem from the appliance into the air-stem port in the cartridge. Rotate to lock into place.

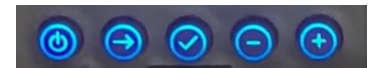

7. Place and tighten the plume kit tightly on the top outlet.

Plume Kit

8. Press the power button 

9. Set the clock:

- Press the "next" button  to select "Options"
- Use  and  to select the correct day of the week, press 
- Repeat to set the hours & minutes and finally, select am/pm or 24hr clock
- For more details on setting the clock, use the QR Code here to access the instructional video:
